

BIG JUMP ON CURB BY UNITED MOTORS

Reaches 69 1/4. A Gain of 1 5/8. High Record for Current Movement.

OTHER STOCKS REDE

United Alloy Steel in Good Demand, but Yields Toward Close.

Following initial strength in stocks in the market yesterday, the session progressed all the way through the day with a gain of 1 5/8 points for the current movement and a gain of 1 1/2 points from its position of Wednesday night.

An explanation for the sharp upturn is the report that the company is negotiating for the purchase of the Brown, Lake Chain Company of Syracuse, the largest manufacturer of differentials and bevel gears for automobiles in the world.

Midvale Steel during the forenoon gained more than a point, but as the session progressed all of the improvement was cancelled, with the stock closing practically unchanged on the day. There was a continued good demand for United Alloy Steel and after early trading the stock yielded fractionally.

ROCK ISLAND PLAN IS AGREED UPON

Peabody and Prosser Committees Compromise on Assessment.

NEW PREFERRED ISSUES

Foreclosure Proceedings to Be Stopped and Reorganization Method Revised.

After a series of informal conferences during the last few weeks the Rock Island and Peabody committees, of which Charles A. Peabody is chairman, and the joint committee of the Peabody and Prosser committees, have reached an agreement whereby the Peabody committee is to withdraw its proceedings to foreclose the mortgage and the Prosser committee is to revise its reorganization plan.

The plan provided for the raising of \$20,000,000 by an offering of stock of \$10 a share, but this amount was regarded as insufficient by the Peabody committee, which thought that \$20,000,000 would be insufficient to meet the needs of the company. The two committees have now agreed to determine upon an amount between these two figures.

SOUTHERN PROBLEM TAKEN UP

Directors Discuss Permanent Financing of Railroad.

Directors of the Southern Railway Company met in session yesterday to discuss a plan looking toward the permanent financing of the company's reorganization. The plan will provide, it was reported, for a new general mortgage, under which will be placed a higher rate of interest than is possible under the existing mortgage, and refunding of the mortgage at a lower rate of interest.
